

Best-In-Class Logistics Company

In The Midwest

Warehousing, Automotive Logistics,
Fulfillment, & Trucking in Midwest

About Us

LOGOS Logistics, Inc., headquartered in Romulus, Michigan, was founded in 2008 as a 3rd party logistics (3PL) management company serving in Michigan and throughout the Midwest. LOGOS is a family owned and operated logistics company and has developed its reputation of expertise in automotive logistics from just-in time deliveries to warehousing.

In 2009, LOGOS expanded to asset-based carrier service for short haul and long haul. LOGOS has grown into a superior provider of asset-based transportation that enhances your business's competitiveness with a full-service staff of logistics experts. Our asset-based facilities and equipment allow us to meet our customer's expectations, and our dedicated staff of supply chain solution professionals ensure that we exceed expectations.

Over the years, LOGOS warehouse offers FIFO storage requirements, repacking and quality sorting and extends to E-Commerce Fulfillment Service. Providing the aforementioned services allows LOGOS to offer inclusive logistics solutions to our customers from start to finish, nationwide.

Today, LOGOS provides 3PL warehousing and fulfillment, trucking, contact logistics and freight management for companies in the automotive, chemical, food and beverage and consumer products industries.

EDI Order/ASN management	Vendor managed inventory	Sequenced pick & delivery	Packing & re-packing
Distribution order management solution	E-commerce fulfillment	Cross docking	Quality sorting and inspection
Free access to Cloud Based Warehouse Management System (WMS)	Free download of inventory and transaction report	Online inventory and order visibility	System Integration

Warehousing Service

Multi-Client Warehouse

Our multi-client warehousing services allow you to focus on your core business while we manage the flow of your materials, in addition to other clients' – all in one single facility. With this model, costs associated with space, labor and equipment are shared.

Dedicated Warehouse

A dedicated warehouse is exclusively provided for your business. These warehouses can either be built specifically for the distribution of your products or leased and customized to your distribution needs.

Value Added Services

Our value-added contract logistics services for supply chains include kitting, specialty packaging, parts order management, quality inspection and much more!

Warehousing Capacities

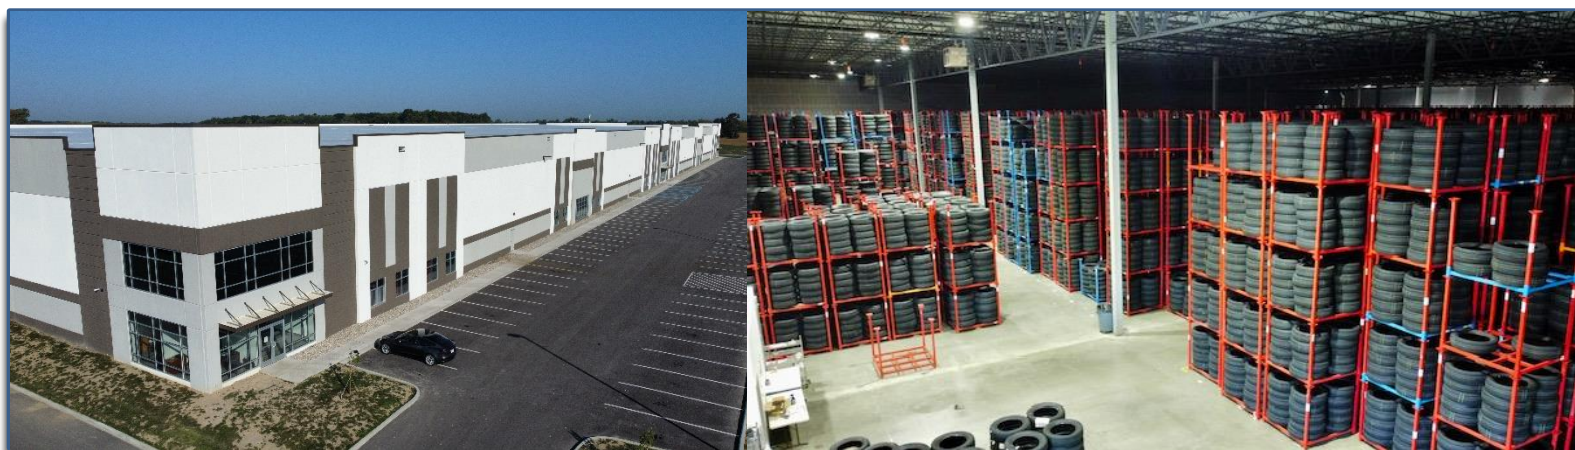

Warren Warehouse Facility

New 90,000sqft warehouse equipped with 13,000 standard pallet positions and automated TSP lifts to enhance pallet picking efficiency and space capacity

Rossford Warehouse Facility

78,000sqft warehouse for OE tires to accommodate more than 100,000 pieces storage and 2,000 pallet storage capacities

Romulus Warehouse Facility

78,000sqft warehouse for OE parts distribution and e-commerce fulfillment with 6,000 pallet positions

Automotive Logistics Services

With decades of industry experience and optimal geographical locations near the Big Three Automakers in Detroit, we are able to offer the most ideal logistics solutions for automotive manufacturers and suppliers globally. With a well-equipped inventory management system, we can package, kit, and sequence small/large automotive parts directly to the assembly line. We offer plenty of warehouse space for parts and raw materials, all delivered on a “Just-in-Time” (JIT) basis.
